

If you have a Business Background and Seeking to Serve God in Mission this may be for you

Home Leone's vision is of a nation free of slum living. As a non-profit, with Christian founders, it has started a holistic sustainable movement, enabling thousands to exit Sierra Leone's slums. It's pilot "Destiny" village develops a community of over 2,000 people, providing jobs, education, low cost homes (LCH), social infrastructure, utilities and health facilities. Led by Christians with a passion for Jesus, it's programmes, social justice initiatives and training maximise the effective use of vital infrastructure.

We are looking for someone to join us who can develop the enterprise and business side of our work. We are building a sustainable community so people who exit the awful Freetown slums get a job in a local business so they can be paid, send their children to school, rent a house (which they are on a plan to own) and make a full contribution to their community.

The first businesses are being established being a chicken farm, piggery and water factory as we know these work. We will have transport businesses and vocational training leading to building trades.

Our passion is that many will come to know the Lord, through our calling to simply serve the poor. In a nation facing the challenges of post-ebola reconstruction, Christians who have business background and who want to use their skills in a pragmatic and practical way can make a great contribution.

So if you are seeking God as to what is next, please consider if this is something you could join us in. Our web site is www.homeleone.org or contact me at nigel.hyde@homeleone.org.

God bless

Nigel Hyde

Chief Executive
